July 2012

Re: Village of Barrington Hills
Outfall Inspection Notification Letter

Dear Resident:

In compliance with Federal requirements under the Clean Water Act, Barrington Hills has developed a Storm Water Management Program in an effort to detect and eliminate non-storm water discharges into local waterways. These requirements are in place to protect water quality and create cleaner lakes and streams.

In order to locate and track pollutants effectively, locations where the Village's storm sewer system drain empties into a lake, stream, or detention/retention basin will be inventoried, inspected and photographed. These inspections may require access to portions of your property. The Village has contracted with Gewalt Hamilton Associates, Inc. to perform these inspections. All individuals performing this work will carry identification confirming that they are employees of Gewalt Hamilton Associates, Inc. Furthermore, no access will be required in any homes or businesses. Inspections are to occur between the weeks of July 30, 2012 to August 10, 2012.

We thank you in advance for your cooperation during this project. If you have any questions, please feel free to contact me at (847) 551-3000 or Marcy Knysz (Gewalt Hamilton Associates, Inc.) at 847- 478-9700. We also encourage you to visit the Village's website http://www.barringtonhills-il.gov/plancomm_docs.html for additional information on this program.

Sincerely,

Robert Kosin
Barrington Hills Director of Administration
